

Birds and West Nile Virus

People don't get West Nile Virus from birds, but we can use them to find out if it is here.

1. When you see a dead bird

2. Put a plastic bag on your hand to pick up the bird

3. Double bag the bird, then store in a cool place

4. Call 211 for further instructions

Don't Let Mosquitoes Bug You!

Here are some things you can do to reduce mosquitoes around your home.

- Eliminate standing water

- Fix leaky faucets

- Flush Bromeliads (or other plants that hold water) with water

- Dispose of old tires

- Clean your gutters

- Repair screens and jalousie windows

You can help eliminate mosquitoes! If there is no place for mosquitoes to grow, there will be fewer mosquitoes to spread West Nile Virus. Dial 211 or log on to www.hawaii.gov/health for more information.
